Carol Baughman
Newfield Public Library
115 Catawba Avenue
Newfield, NJ 08344

Dear Ms. Baughman,

Enclosed please find a binder which contains the entire Administrative Record files for Operable Unit 2 (OU2) of the ShieldAlloy Metallurgical Superfund site. There is a hard copy index of documents as well as a hyperlinked Excel format index on the CD. If your public computers do not have Excel on them you can download a free version of Excel Viewer from Microsoft.com that can access the file. Please make these documents available for public review and treat them as a non-circulating reference – not to be removed from your facility.

If you feel your community would be better served with a hard copy collection of these documents please let me know and one will be provided.

If you have any questions, please call me at (212) 637-4325 or Sherrel Henry, the Project Manager, at (212) 637-4273. If at any time you can no longer maintain the Administrative Record at your facility, please call us and we will arrange to have it removed.

Thank you for your help.

Sincerely yours,

Robert Keating
Superfund Records Manager
